Wireless Moisture Meter

GT-5783

GEO-TRAC has teamed up with **Phoenix DrySENSE** to introduce a new wireless moisture meter. The **GT-5783 Wireless Moisture Meter** is a compact battery powered IoT device that measures **Relative Humidity, Ambient Temperature** and the **Moisture Content of Wood, Drywall and other building materials**. It will then transmit the data to our **GT-2 4G Mobile Gateway** which in turn will transmit the data to our cloud server.

The stainless steel pins will allow you to mount the meter into drywall and an accessory that gives you the ability to put stainless screws into harder surfaces to measure the moisture content.

ITEM	SPECIFICATION
HUMIDITY	HUMIDITY ACCURACY +/- 3.5% RH 20%-80% HIGH RH SENSITIVITY 0.0004% RH/LSB
TEMPERATURE	TEMPERATURE ACCURACY +/- 0.5C 15C to 40C TEMPERATURE ACCURACY +/- 0.9F 59F to 104F
MOISTURE	MOISTURE CONTENT SCALE 10%-30% +/- 1% WOOD REFERENCE SCALE ALL READINGS OVER 30% ARE RELATIVE
POWER SUPPLY	AA BATTERIES
